

# Design Command-Line Tools

## People Love

[carolynvs.com/cli-cfp](https://carolynvs.com/cli-cfp)

- Problem statement and takeaways in abstract
- Provides examples to back up claims, without naming names
- Lists recommended libraries and why
- Spells out advice and gives brief context or explanation to back it up
-  Don't list things that you aren't sure will fit into the talk

# DIY Home Netflix

[carolynvs.com/cfp-kubecon-handbrk8s](https://carolynvs.com/cfp-kubecon-handbrk8s)

- Fun idea with actionable takeaways
- I'm using Kubernetes but it's not about Kubernetes
- 🚩 Based on a side project that isn't used by others. No link!
- 🚩 Outline would only make sense to me, it's not clear what I would show
- Has a great supporting [blog post](#)... that I didn't link to 🙄
