

Submission Checklist

- Is this *about* Go or does it only *use* Go?
- Is the talk topic clear from the title?
- Does the abstract explain the problem/topic that your talk will address?
- Does the abstract include 2-3 concrete actionable takeaways for the audience?
- Does your outline include all major points that you will make and spell out exactly what your recommendations/advice/pros/cons are?
- Have a friend read just the title and description. Do they understand what the talk will be about and what they will learn?
